

Facebook Badges...now called Plugins.

On my Home page <http://www.brendasimon.com/>

You'll see a Find Us on Facebook button on the top right, scroll to bottom and you'll see 2. (This Become a Fan" badge is no longer offered.

This page lets you see the possible "Plug-ins" (aka Badge) for your website:
<http://developers.facebook.com/plugins>

See which one you want and let me know. It used to be a bit easier, now some of the code requires you know which code is needed and "other code" to make that work. The "Like Button" is popular.

If you simple want this graphic:

I can add this once I locate your Facebook Web Page.

A username is a very nice touch, but you need to have 25 fans before you can add a user name. On my Home Page: hover over my badges - look to the lower left corner of Internet Explorer and you'll see: "Facebook.com/BrendaSimonCreations"

Once you qualify think about getting a username.

Go here:

<http://www.facebook.com/help/?search=How%20do%20I%20regsiter%20a%20username%20for%20my%20facebook%20page>

click: "How do I change my username?" - follow those instructions.
