

There are three steps to creating your website.

1. Secure domain name. Your website name.

This can be done through a number of resources. I use <http://www.namesecure.com>.

Resource: <http://www.namesecure.com>

Online registration is simple.

\$8.95/ year (subject to change) plus a regulatory fee of
\$0.18/year (total of \$9.13/year)

2. Web Hosting. There are many, many resources. Your topmost concerns are the webhost's (also called "server") reliability rate and support. It is your business so you do not want the cheapest web hosting. For convenience I offer my web hosting resource at a rate of \$15.00/month paid semi-annually and will set up your email at no additional fee. If need to send (receive is included in above \$15.00 monthly fee) through Outlook additional \$2.00/month per mailbox. E-commerce requires additional server services.

3. Web Design. My basic package includes up to 10 webpages (does not include Flash, video, audio, cgi-forms or e-commerce) for \$750.00. Each additional webpage \$50.00. Critical to every site, I include Search Engine Optimization which is hidden code, site page structure and page content/copy to help Google's indexing of your website.

There is no monthly maintenance fee. Unlike Verizon there is no per month fee. Once the site is created your only cost is the web hosting fee until you are ready to update or change pages on your site. My rate for changes/updates is \$35.00*/hour (subject to change).

Websites need to be tailored to the business and I take great care to set the tone of the site to reflect your business practices and goals. Your website will be custom designed using your logo and copy/text/ information. While you supply the images and content for your site I am able to enhance and correct photos. Together we will build the best website for your company's needs.

Please visit my website: www.brendasimon.com Under Website Design you'll find "Website Clients" to view some of my clients. Click to visit their sites for examples of my work.

Thank you for your consideration.
